DESCRIPTION

Open Safety Special Forces Diver's Tactical vest, in service with many nations.

The vest integrates a body armour plate carrier, with a tactical vest that is optimised for Special Forces divers.

The vest is supplied with a cummerbund both Athletic (XXS to L) and Large (M to XXL) sizes, allowing one vest to fit all.

The vest has a single piece of TPU coated 1800kg rated webbing RF welded internally to provide a diver lift capability. The standard harness has a 120kg lift rating for assisting divers out of the water. A helicopter lift option with aluminium alloy buckles rated at 750kg lift is available as an option.

Colour is matt black.
